

FAIR AT SEYMOUR LOSES OSTRICH ON EVE OF OPENING

Racing Bird Breaks Leg and Is Killed—Fair Will Open on Tuesday

Seymour fair opens Tuesday with an excellent race card and the biggest exhibit in history but will be minus one of its flock of racing ostriches due to an accident. The bird had to be put to death after it broke its leg. The fair continues through Thursday.

This year's biggest attraction is the ostrich farm, with approximately 50 birds. Part of them are racing ostriches and while they were being exercised around the racing ring at 5 o'clock Monday morning one of them tripped, resulting in the broken limb. Its death will in no way affect the ostrich attraction or the races, as there are plenty of the birds that can be exterminated to its place. This is the third while the owners have lost out of the flock since starting on the show circuit.

SPEED CARD BIG

Fifty-six entries in the horse racing department makes the speed card one of the best, with some exciting heats in prospect. Wednesday will be feature day in the races, as the entries are the largest for the fair with 22 stabled in the 2:24 pace alone.

Only one race will be run on Tuesday, a 2:19 pace for which there are 16 entries.

WEDNESDAY BIG DAY

Wednesday's schedule includes 13 entries in the 2:30 pace, 12 in the 2:30 trot and 22 in the 2:24 pace. Some of these are horses that have furnished a thrill in many racing contests around the state.

There will be two races on Thursday. Seventeen horses are entered for the 2:15 pace and fourteen for the 2:20 trot.

Night fair will be held on Tuesday and Wednesday but not on Thursday.

Capacity of the exhibition buildings this year was not enough for all the animals that are competing for the prizes. The cattle and horses barns were filled to overflowing Monday and tents had to be put up to house the remainder. Two of these have been provided for cattle and one for horses.

TWO HEART-BROKEN FATHERS

Side by side sit these two heart-broken fathers—Jacob Franks (left) and Nathan F. Leopold Sr.—in Chief Justice John R. Caverly's court in Chicago, as the defense fights to save Nathan Leopold Jr. and Richard Loeb, confessed slayers of Franks' son, Robert, from the gallows. The strain they have undergone is plainly evident on the faces of both. The man in between them is a newspaper reporter, in constant telephonic communication with his office.

DRIVER SHOULD BE OWN MOTORCOP TO ENFORCE ROAD LAW

Safe Drivers Club Officers Strong for Licensing of Automobile Drivers

Although driving on Appleton streets is some improvement over former days, flagrant examples of reckless driving can be seen daily on rural highways, officers of the Safe Drivers Club of Outagamie county declare.

Utter disregard for law and ordinary rules of public safety are faults attributed to no small number of drivers of varying ages, particularly to many young men. The situation is described as one almost beyond the control of enforcement officers and the courts, and one that requires either wholehearted cooperation of drivers in the interest of safety or some kind of remedial legislation.

A somewhat optimistic view was taken by Dr. W. H. Meeker, president of the Safe Drivers club. "I think we are having much better driving, especially in the city," he said. "Recently I was in Des Moines and was surprised to see that the city has not even an arterial highway system. There were mixups and traffic jams of all kinds on the streets, with no traffic officers to direct the traffic."

MORE CARS, MORE SAFETY

"Viewing the situation in Appleton, I should say that an increase in the number of cars also makes for an increase in safety. As for speeding, only the motorcops can stop that. Licensing of drivers would prevent many accidents now being caused by new and inexperienced drivers, since no license would be issued except to one who passes a drivers' test. Children should be barred from the use of cars, for to them an automobile is an instrument of death."

"There is one other means which, I am sure, would tend to decrease accidents. All the street car and automobile collisions are known to occur at the front end of the street car. If street cars carried red lights in front, automobile drivers would be able to distinguish it from another car."

Careless driving is not a matter to be made light of, but one that calls for serious condemnation. It was declared by Otto Mosholder, second vice president of the club.

"Education against the evils of reckless driving and deliberate speeding is not being carried on as vigorously as it might be done," he asserted. "If the laws cannot be enforced, we must take it upon ourselves to set a recent example for others and so encourage sane, safe and careful driving."

BE YOUR OWN MOTORCOP

"If you think that driving is getting any better, I would invite you to sit out on my front porch for just

STATE FAIR PRIZES TOTAL \$127,000

Milwaukee—The total awards offered exhibitors at the 1924 state fair at \$127,000.25, an increase over the amount awarded in 1923, according to Oliver E. Rainey, secretary. The total cost of the fair this year will be \$230,000, his estimates say.

"The 1924 fair may not show a balance in its favor," Secretary Rainey said, "but with favorable conditions, the deficit will not be inconsiderable. Success of a fair is measured also in good accomplished. In other words, there is expended through the medium of the fair more than \$100,000 to promote interest in agricultural pursuits by offering prizes. That the fair has had its part in the development of dairy and other agricultural activities in the state is conceded by all, and the annual expenditure in this way is considered highly justifiable."

15 minutes and see what is being done on the concrete highways. The motorcops are doing good work, but they are being hampered by those who are deliberately speeding and keeping a sharp eye open for the motorcops. Drivers in general must back up the law, keep an eye on themselves and be their own officers."

"Fining the reckless driver will not better matters," is the judgment of P. A. Kornely, first vice president. "Drivers are disregarding the fines. They pay their \$10.00, and that's all there is to it. A lot of them, I believe, are repeaters. I think it is getting to a point where drivers guilty of second offenses ought to be sent to the stone pile, or ought to be deprived of the use of their cars for a month or so. That would be a bitter lesson to them, for who can stand having his car taken away from him, if even for 30 days?"

SEND 'EM TO JAIL

"The Safe Drivers club adopted a resolution commending Judge Spencer for his determination to jail drunken drivers," said Miss Mabel Sibley, secretary and treasurer of the club. "That, we believe, is the only kind of punishment that really is effective. Reckless driving should receive the same penalty."

"Parents should forbid young children the use of the car. A law licensing drivers who pass an examination and revoking the license of violators, as is already in effect in Chicago with respect to employed drivers, would be effective. Another safety method in Illinois that might be copied here is the posting of signs on the highways reminding pedestrians to keep to the left. If pedestrian walked on the left side of the road instead of the right, accidents would be lessened, for they could see cars approaching them."

History Of County Bar In Pictures

The history of 70 years of bench and bar is reflected in a group of pictures which adorns a wall in the county court. They are the pictures of the eleven county judges who have served in this county from 1853 until the present day. The pictures had been in separate frames, but Judge Fred V. Heinemann has had them collected in one large group picture with the pictures of Judge Henry Kreise and the late Judge John Bottensek added.

Perry H. Smith was the first county judge, taking office in 1853. The others are as follows: William Johnston, 1854; John Jewett, Jr., 1858; George H. Myers, 1862; Samuel Boyd, 1865; Samuel Ryan, Jr., 1866; Joseph Harriman, 1874; Frank Harriman, 1889; G. T. Moeskes, 1890; Henry Kreiss, 1902; John Bottensek, 1920. Judge Heinemann is the twelfth judge, and took office last May.

Of the former county judges, only two are living. Judge Moeskes and Judge Kreiss. Four of the judges first came into office by appointment, two, Johnston and Boyd, succeeding judges who resigned, and two, Frank Harriman and Judge Heinemann filling vacancies caused by death of the predecessor.

A considerable number of automobiles have been purchased in Appleton this year, if the sale of special automobile license plates by the police department is a fair indication. The department had 200 of these plates made for temporary use on cars whose owners have applied to the secretary of state for automobile licenses. There are from 15 to 100 of these in circulation all the time. At one time all but the last two plates, Nos. 199 and 200, were out. The plates were put in use here on May 17 and during these three months the department has issued them for about 750 cars. Not all of the owners live in Appleton, however. It is a consoling fact that license number 13, issued eight times, never caused an accident to the car on which it was attached.

The condition of Michael Drewlik the mason who was injured by a 50-foot fall from a scaffold at the east end junior high school, is somewhat improved. His back and neck were injured, but apparently no bones were broken.

NEW WATER WHEELS FOR PAPER PLANT

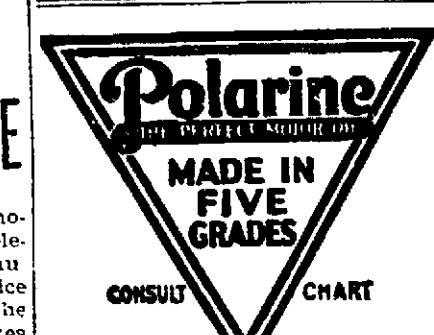

A battery of four new waterwheels is being installed in the Telulah mill of Fox River Paper company. Each has a capacity of 200 horsepower and replace wheels that have been in operation for more than 20 years. The contract for placing them has been awarded to C. R. Meyer & Sons company which will be required to do considerable excavating as the new wheels will occupy more room than the old ones. Installation of the wheels does not interfere with the operation of the mill.

FAVORITE PLAYERS IN 'MISSING DAUGHTERS'

The Elite Theater will feature "Missing Daughters," the Choice Production, released by Selznick Distributing corporation, for 3 days, starting today.

Rockcliffe Fellows has the male lead and Eva Novak plays opposite him. Eileen Percy, Claire Adams, Pauline Starke, Robert Edeson, Sheldon Lewis, Walt Whitman and Walter Long have prominent parts in the production.

Drain your Crankcase every 500 Miles and refill with Polarine the Perfect Motor Oil. It Pays!

singularly appropriately selected cast. The story of "Missing Daughters" deals with wild lives of our modern girls and vividly depicts the horrible dangers to which they expose themselves.

A FEW LUMBER CAMP STUNTS

Some people may imagine that a lumber camp would be a poor place to find movie stunts for a picture, but after seeing Matty Mattison "do his stuff" in "Mile-a-Minute Morgan," at the New Bijou today and Tuesday, the latest release in the Sanford Pro-

ductions Thrillspeedrama series, all shadows of doubt will be removed. An exciting chase over leaning lumber piles of pine, with occasional leaps over yawning gaps between them, capped by a mere 12-foot jump, starts the action, which ends with a thrilling ride hanging to a log on an eighty-foot derrick as it hoists the log to the top of a pile sixty feet high. A four-round ring fight with a real fighter who can give real punishment, and taking a day to photograph enough for the four rounds, meaning

perhaps nearer forty-four rounds of actual fighting. Then, to cap the climax, a daredevil chase across a swift rushing current, and up the mountainside, to a fight on the rocky edge of a precipice, rolling over at the finish to be saved by a bush grown on the mountainside. The above, and a blinding blizzard of a snow storm for the finishing sequence in the picture, were all a part of the schedule for "Mile-a-Minute Morgan"; that is, except the snow storm, and this sequence gave the actors a reasonable rest, as the company had to wait for the blizzard.

At least admit that there was plenty of action and room for it in this latest Thrillspeedrama.

500 WILL TAKE PART IN PAGEANT AT RHINELANDER

Rhineland—An elaborate pageant picturing the history of Onelida will be presented as one of the features of the Onelida fair here Sept. 1, 2 and 3. More than 500 persons will take part in the spectacle. Miss Beatrice Young of the Rhineland high school faculty is in charge of selecting the cast and rehearsals will be started Aug. 20. The pageant will be given each night of the fair and will be the greatest attraction of the kind ever attempted by local talent.

WORTH \$10 TO DEFEND LIZZIE'S SPEED RECORD

Menasha—Leo Pelkey, Menasha, is a Lizzie owner and proud of it. He resents any indignations against what the old car is able to do, even by the judge.

Pelkey was arrested by Motorcycle Officer Joseph Neill for speeding. The complaint read "forty-five miles per hour." Justice of the Peace John Chapman said he thought the charge might have been exaggerated and was considering dismissing the case when "She can do fifty-two," Pelkey flared.

"Ten dollars and costs," said the judge.

500 WILL TAKE PART IN PAGEANT AT RHINELANDER

It Happens Every Day
When you reach into your pocket for your bunch of keys and all that you find is a good-sized hole and you feel about as helpless as though you had lost your clothes—
And you suddenly think that you can't drive your car home, because it's locked and the key is on the missing ring and you say a few forceful words under your breath—
And you have visions of having to get new keys made for the car and the office and the house and the garage and a lot of other things and you decide this is about the worst luck ever—
And then you phone a Lost ad to The POST-CRESCENT, telling where you think you dropped the keys—
And the next day a little boy comes into your office and says his father sent him in to find out if "these are your keys" and you reach for them with one hand and for a dollar bill with the other—
Oh, Man, That's What You Call Service!

And then you phone a Lost ad to The POST-CRESCENT, telling where you think you dropped the keys—
And the next day a little boy comes into your office and says his father sent him in to find out if "these are your keys" and you reach for them with one hand and for a dollar bill with the other—
Oh, Man, That's What You Call Service!

When you reach into your pocket for your bunch of keys and all that you find is a good-sized hole and you feel about as helpless as though you had lost your clothes—

Pershing's Successor As Chief Of Staff Is "Reg'lar Feller"

Washington—Maj. Gen. John L. Hines, who is to succeed General Pershing as chief of staff, is a "reg'lar feller."

While a tireless worker and leader, General Hines has other accomplishments. And one of them is dancing! He rarely ever misses a military dance. His tall, wiry figure is always sure to be seen on the ball room floor. With him dancing is a recreation and a pleasure.

General Hines' family is well represented in the army. His wife, was Miss Rita Wherry, daughter of General William Wherry. His only daughter married Captain John R. D. Cleland. And his only son, John L. Hines Jr., is now at West Point.

GENERAL JOHN L. HINES

RIDING A HOBBY

The general's chief hobby is horse-back riding. Every morning he rides before coming to his office, and on Sunday he takes his staff officers for a long, cross-country ride.

General Hines is a commanding figure. Well over six feet, he is lean and wiry. One would describe him as the "rawbone" type.

During his West Point days he was a football player, and it is said he played on the first football team of the military academy ever had.

Maj. Gen. Hines—he will keep the same rank on becoming chief of staff—was born on May 21, 1868, in White Sulphur Springs, W. Va. He was appointed to West Point in 1887. He graduated in 1891 and was commissioned a lieutenant in the Second Infantry of the regular army.

Among the campaigns he served in were the Santiago, Cienfuegos (Cuba) and the Philippine insurrection of 1901. In 1916-17 he served as adjutant general of the punitive expedition into Mexico in pursuit of Pancho Villa. For a time he acted as chief of staff of that expedition.

WAS IN WORLD WAR

General Hines sailed for France in May 1917 and served as assistant adjutant general of the A. E. F. until October 1917. Having been promoted to the rank of colonel, he was given command of the 16th Infantry of the First division. In May, 1918, he became a brigadier general.

His last rise in rank came in August, 1918, when he was made a major general and assigned to the command of the Fourth Division, which he commanded in the battle of St. Mihiel and during the early stages of the Argonne-Meuse offensive.

General Hines has received many honors and citations, the most important being the Distinguished Service Cross for extraordinary heroism in action near Berry-le-Sec, France, on July 21, 1918. His record shows he personally went into the front lines and advanced with his men in order to restore a broken liaison.

Amateur Photography Is As Popular Here As Ever

Not the least of the many sports indulged in by the American people is "taking pictures," and since Appleton is blessed with many beauty spots and has a number of shops that specialize in finishing amateur work, hunting with a camera is not the least of the amusements local people indulge in. The number of amateur photographers, according to information gleaned in local shops, is increasing steadily and, it was said, improvement in the quality of pictures is noticeable.

For the most part amateurs take pictures of their friends, of Uncle John when he visits, or of the baby brother. They like scenery too and it is easy to tell when a group has been sent in to be finished are of picnic groups and beauty spots.

It is easy to tell when a person has acquired a camera recently, finishers say, for it is not only the quality of the pictures that is poor, but the beginner will take anything for his subject just to be able to take a picture. After he becomes experienced his pictures improve in composition and subject, he pays more attention to background and makes his camera in a way that insures good pictures.

The most common blunders are jarring of the camera, double exposures, not judging distance correctly and taking pictures in poor light. The best time to take pictures it was said, is between 9 and 3 o'clock when the sun is at its best.

The more experienced photographers often attempt "trick" pictures with excellent results. For instance, pleasing "moonlight" pictures can be taken, if you know just how to go about it, by facing the sun when a picture is taken. Silhouettes are

made in this manner also. Then, by careful manipulation, "twins" can be made by taking a double exposure.

KELLER IN CHARGE OF STATE LEGION

New Commander Will Be Guest of Post Executive Committee at Banquet

L. Hugo Keller, newly elected commander of the Wisconsin department of the American legion, will be entertained at a banquet by the executive committee of Oney Johnston post Monday evening. Mr. Keller was elected at the state convention which closed at Chippewa Falls Friday night.

In all probability the new state commander will present his resignation as commander of Oney Johnston post at tonight's dinner. He already has assumed charge of the state organization and one of his first tasks was to appoint his aides in the state department.

S. L. Plummer, Cadott, Keller's principal opponent in the legion election, was appointed membership director for the state, a position which Mr. Keller held last year. Austin Petersen, Milwaukee, was reappointed state adjutant.

MRS. BUSH TELLS OTHER WOMEN

How Pains in Side and Dragging Down Feelings Were Relieved by Lydia E. Pinkham's Vegetable Compound

Massena, New York.—"I had terrible pains in both my sides and a dragging-down feeling that affected me so that I could hardly walk, and I got run-down. A friend who had taken Lydia E. Pinkham's Vegetable Compound advised me to try it, and I have taken it with the best results. I do my housework and also some outdoor work on the farm. The Vegetable Compound has given me back my health and I cannot praise it enough. I am perfectly willing that you should use these facts if my letter will help other women who still suffer."—Mrs. DELBERT BUSH, R. F. D. 1, Massena, N.Y.

The spirit of helpfulness shown in the letters we are constantly publishing is worthy of notice.

These women know by experience what Lydia E. Pinkham's Vegetable Compound will do. Your troubles are the same as theirs.

If you have pains and a dragging-down feeling and are nervous and irritable, profit by Mrs. Bush's experience and give the Compound a trial.

HOPE FOR VICTORY IS IN ORGANIZING, VOTER LEAGUE TOLD

Progressives Get Reports on Political Activities in District

Organization and more organization was the formula for winning the coming election urged at the meeting of the Farmer-Labor league in Trades and Labor hall Saturday evening. A delegation of Shawano-co progressives, under the leadership of M. G. Eberline, attended the meeting.

John Englund, the Wittenberg newspaper man who is being boomed for state senator to succeed Antone Kulkuck, Shawano, candidate for reelection, was not present but sent a letter which was read.

Most of the talks were reports on political activities in various parts of the Fourteenth district and exhortations to strengthen organization. La Follette-Wheeler clubs in every ward and township to get the political issues before the voters was suggested by Charles Sample, labor leader.

Several of the speakers characterized the coming election as a "walk-away" for the LaFollette ticket but at the same time they warned against over-confidence and urged more organization.

Candidates for state and county offices were among the speakers, with political workers from more than a dozen communities presenting reports.

D. A. Kirklin, Ellington, was elected secretary of the league to succeed

Anton Jansen, Little Chute, who resigned because he is a candidate for county office. The next meeting of the league will be on Aug. 30.

Miss Ruth Loomis of Gilmanton, is visiting relatives in Appleton.

Gustave J. Keller left Sunday for Chicago, where he will meet Mrs. Keller and daughter Alice, who are returning from a several weeks' visit in Hollywood, Calif. They will return to Appleton Monday.

Harry Johnson of Cleveland, engineer on the Wheeling & Lake Erie, was faithful to his trust to the end. Rounding a sharp curve near Canton, O., he saw a trestle just ahead was on fire. It was too late to stop his train. He ordered his fireman to jump, but he remained at the throttle, for the lives of 90 passengers were in his hands. The engine and three cars, mail, baggage and a day coach, plunged into a creek below, then caught fire. Twenty passengers were injured but only one seriously. Johnson's heroism had saved their lives though it cost him his own. The picture shows the debris of the trestle and destroyed cars.

MORE WARDS HERE AWAIT ACTION ON NEW SCHOOL SYSTEM

**Alderman Points Out Difficulty
of Creating Wards Under
Present Plan**

A movement originated in the common council last spring looking toward the creation of several new wards in Appleton has lagged on account of the difficulties presented by the boundaries of school districts.

As long as the city is without the union system of schools, the plan to add several more wards will be somewhat delayed, it was stated by Alderman C. D. Thompson. The motive back of the plan is to give Appleton greater representation on the county board, since the city is allowed one supervisor for every ward.

A change in ward boundaries would be desirable, it is said, on account of the school district boundaries that now follow the ward lines. The first ward constitutes the first district, the fourth ward is the fourth school district, the second and sixth wards make up the second district and the third and fifth wards are the third district.

The plan of dividing the wards according to the precinct division lines is considered impractical because it would result in wards of unequal size. The second ward, which now is the smallest in area, would be transformed into two tiny wards, it was pointed out.

It is expected that the question of a union system of schools will be submitted as a referendum within a few months, and if the project succeeds, the city will be in a better situation to undertake a new division of wards, it was said.

SAW FURNACE SMOKE AND THOUGHT HOUSE WAS AFIRE

A fire alarm at about 2 o'clock Sunday afternoon sent the firemen on a wild goose chase to the Third ward. The box at the corner of Eighth and Louis streets had been pulled, but when the apparatus arrived there, the men could not locate a fire. It is not believed that the alarm was sounded with any malicious intent for it was learned that a family in the neighborhood had started a furnace fire, and the smoke it caused undoubtedly led some one to believe that the building was on fire, it was said.

45 TUBERCULAR COWS ADD TO HIS HARD LUCK

Sheboygan—Charles Joslin, farmer, residing two miles west of Sheboygan Falls, thought he had the hardest kind of luck when his hired man decamped with a \$300 ring he gave his wife thirty years ago, but a few days later, as a member of the cow testing association, his Holstein herd was tested and forty-five head were found tubercular. As they are purchased worth over \$100 a head, he will lose \$60 a head, or \$2,700, the difference being made up by the association.

THEY'RE ALL WILLING TO SERVE IF ELECTED

No political candidates in Outagamie-co lost the right to have their names entered on the official ballots for the primary election because of failure to file with the county clerk a declaration that they would qualify if elected. According to information emanating from the attorney general's department three candidates in St. Croix were deprived of this privilege. Candidates in other counties also failed to file. Although a few candidates of Outagamie-co failed to file the declaration with their nomination papers, the error was rectified before the expiration of the allotted five days after filing nomination papers.

CONSIDER SUCCESSOR TO PRESIDENT BIRGE

The committee appointed by the board of regents of the University of Wisconsin to make recommendations relative to naming a successor to President E. A. Birge held a meeting in the office of John Callahan, state superintendent of schools Saturday to discuss candidates, according to information received by Fred Bachman, member of the board of regents. A score of candidates are being considered. Among them are Dean Robert M. Lovett of the University of Chicago, Dean Roscoe Pound of Harvard university, Professor F. J. Turner of Harvard, and John R. Commons. The committee will make its report to the board at a meeting to be held in October.

AWAIT MACHINE TO MARK LINES ON COUNTY HIGHWAYS

**Annual "Paint Job" Delayed
This Year Because Machine
Is in Demand**

Marking of concrete highways in this county with the center dividing line has been delayed this year as a result of difficulty in obtaining the road marking machine loaned to the counties by the state highway department. The old painted lines have been nearly defaced by the traffic which has passed over them for more than a year.

The painting is done not by a brush but from a hard rubber tire, which is neither flat nor round, but concave. The revolving fifth wheel is automatically cleaned of dust by a brush, in order to make an even line. The concave feature of the tire prevents spluttering of paint on the concrete. Although painting of the pavement with the dividing line is appreciated by some motorists, the effectiveness of the mark is doubted by A. G. Brusewitz, county highway commissioner. Many motorists pay absolutely no attention to the mark, he said, and drive in the middle of the road instead of keeping to the right of it.

PAPERMILLS WAIT FOR ELECTION DAY

**Expect Little Improvement in
Business Until After
November**

Consensus of opinion of local paper manufacturers is that there is a slight improvement in the market and that from now on the demand for paper will gradually increase. Some, however, insist conditions will not become normal until after election because of the uncertainty that exists as to the result. About all the mills continue to run light, closing down their entire plants for a day or two at a time when necessary or by operating less machines.

Pulpwood has been arriving in large quantities for the last few days the daily shipments occasionally running from sixty to eighty carloads. Most of it is being unloaded at the Interlake and Riverside plants.

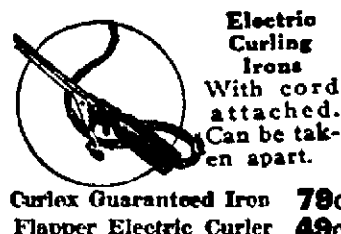

DOCS MUST GET LIQUOR PERMITS BEFORE AUG. 31

Less than half of the 2,500 Wisconsin physicians holding permits to write liquor prescriptions under the Volstead act have applied for authority to continue, according to the federal prohibition department. The last day for filing is Aug. 31. Fines collected under the federal prohibition law in Wisconsin during July totaled \$5,650.

BIG ELEMENT OF DOUBT IN THREE CORNERED FIGHT

Third Party in Political Race Upsets Politicians' Calculations

BY CHARLES P. STEWART
Washington—L. F. Felt and Wheeler as many Democratic votes as the Republicans predict, and if they get as many Republican votes as the Democrats say they will, then the Progressives stand a first-class chance to win.

However, the Republicans deny that the Progressives will draw very heavily from their tickets, the Democrats deny that the independents will draw very heavily from theirs. So there you are.

Never probably was there so doubtful a presidential campaign as this year's. The 1912 fight was a triangle, but the third element which entered into it was the result of a one-party split. This year the third element is made up of candidates from both the old parties.

In Iowa there is talk of the candidacy of John T. Adams, recently chairman of the Republican National Committee—as an independent against Senator Brookhart, but really with Republican support.

Republicans, however, are optimistic and on the basis of their definite unqualified claim, to say nothing of that for which they hope, they would have 261 electoral votes or 18 more than necessary for a "majority over all."

Democrats, however, claim 189 electoral votes at the start. With such a nucleus they would win if they could capture New York and one other state.

The Progressives claim ten states for a total of 60 electoral votes and have great hopes of landing five more states. In the remainder of the country they make no concessions to either of the old-line parties, simply saying they will surprise them both everywhere.

At all events, the element of doubt is very large.

Take the following list of the states' electoral votes and apply them to the accompanying map. You will then see what claims are made by the various political groups. Your guess on a winner will probably be as close as the other fellows'.

The states' electoral votes are:

Alabama	12	Montana	4
Arizona	8	Nebraska	8
Arkansas	9	Nevada	3
California	13	N. Hampshire	4
Colorado	6	New Jersey	14
Connecticut	7	New Mexico	3
Delaware	3	New York	45
Florida	9	N. Carolina	12
Georgia	14	North Dakota	5
Idaho	4	Ohio	24
Illinois	29	Oklahoma	10
Indiana	15	Oregon	5
Iowa	13	Pennsylvania	35
Kansas	10	Rhode Island	5
Kentucky	10	South Carolina	9
Louisiana	10	South Dakota	5
Maine	6	Tennessee	12
Maryland	8	Texas	20
Massachusetts	18	Utah	4
Michigan	15	Virginia	12

BIG PARADE TO FEATURE CLINTONVILLE DAIRY SHOW

Clintonville—Extensive preparations have been completed for the dairy men's field day celebration in Clintonville on Wednesday. The affair will be unique in the fact that it is the first time in this part of the state in which both the rural district and city are uniting to pay tribute to the great dairy industry, which is the foundation of Wisconsin's prosperity. Several noteworthy features have been planned for the occasion, among them an enormous dairy parade. The celebration is put on under the auspices of the Clintonville Alfalfa and Dairy club, chamber of commerce, the Waupaca County Holstein Breeders' association and cheesemakers of the community.

CLAM FISHERMEN FIND PEARLS WORTH \$2,620

La Crosse—Clam fishermen at Lake Pepin have found several valuable pearls recently. G. B. Fuller, of Pepin, Wis., while boiling out a catch of clams, found a perfect globe pearl weighing thirty-two grain valued at \$1,400, and Milo Foster of Pepin found a fifty-one grain pearl which sold for \$1,220.

SHAWANO-CO FAIR WILL OPEN ON ELECTION DAY

Shawano—The Shawano county fair will be held Sept. 2 to 5. The fair board, consistent with the success of last year's fair, has proportionately improved each and every department in this the support and cooperation of the entire county has been given freely. The Shawano County Fair association is the first in Wisconsin to erect on the fair grounds an educational building that has the appearance and design of a school house.

The structure, 36x60, is now complete. The building has a bell tower with a large old fashioned school bell, which will ring each afternoon and evening, proclaiming the opening of the fair.

GREEN BAY ROTARIANS GUESTS OF APPLETON CLUB

Green Bay Rotarians will be entertained by Appleton Rotary club at an outing at 4:30 Tuesday afternoon at High Cliff. A baseball game is scheduled, after which cafeteria supper will be served at the park.

TEACHERS ASSOCIATION WILL HEAR LORADO TAFT

Oshkosh—One of the features in connection with the convention of the Northeastern Teachers' association, which will convene here on Oct. 9 and 10, will be a lecture and demonstration by Lorado Taft, the noted sculptor. Mr. Taft will give a lecture on "A Glimpse of a Sculptor's Studio." He will give a demonstration with clay, plaster, marble and bronze and the tools used.

MR. COFFEE GETS HOT WHEN ROASTED BY MONROE JUDGE

Monroe—A car with a New York license plate rode into town at such a clip that its driver was halted before a local justice on a charge of speeding.

"Name?" queried the judge. "Coffee," said the prisoner. "First name?" asked the judge. "Roasted," answered the prisoner.

"Roasted Coffee," mused the judge, and proceeded to roast Mr. Coffee some more, intimating that any one that would travel at the speed Mr. Coffee was going must be only half baked. "You're liable to spill yourself all over the road some day, Mr. Coffee," the judge warned as he fined him \$15.

Mr. Coffee took the roasting coolly, but the fine it appeared, made him hot. He poured himself out of the courtroom and flowed away in his car.

MOVE OLD PAPER MACHINE TO NEW RIVERSIDE MILL

Riverside Fibre & Paper company has commenced moving the paper machine from its old plant on Lake st to its new mill on South Division-st. Most of the calendars are at the new mill waiting to be set up. The machine is being given a thorough overhauling and worn parts are being replaced. The company expects to have it in operation by Oct. 1. The new paper machine has been running for several weeks and the company is now settled in its new office.

MASONIC LODGE WILL USE TEMPLE FOR FIRST TIME

Members Will Bid Farewell to Old Quarters at Meeting Tuesday Night

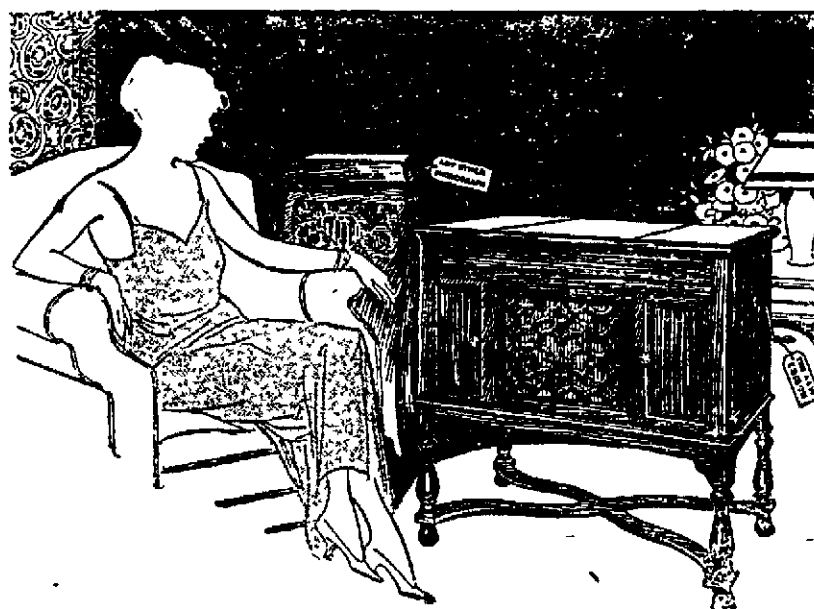

Waverly lodge, will take possession of the new Masonic temple Tuesday evening when the Masons will hold their first regular meeting there. This will be only an informal opening of the temple, as dedication will take place later, when all the new furnishings are received.

Tuesday's gathering will be a farewell to the old lodge quarters in Masonic hall as well. The members will convene in the quarters above the Continental clothing store at 7:30. The session will be opened there and the members then will go to the new temple in a body and close the meeting at that place.

A program suitable to the occasion has been arranged, including the serving of a lunch. Several Masons who were present at the dedication of the old lodge rooms 42 years ago are to be in attendance at this event. There will be no degree work.

George H. Packard, Adam C. Remley and Homer H. Benton form the committee which is in charge of the arrangements.

SUNDAY'S RESULTS
Nee-Menasha 2, Sheboygan 0.
Oshkosh 6, Green Bay 1.

While Appleton was idle Sunday afternoon because of wet grounds at Fond du Lac, Oshkosh staged a march on the Papermakers by defeating Green Bay, 6 to 1, while the Pails were covering the Chairs with a coat of whitewash to the tune of 2 to 1. The Papermakers remain in second place behind Rush's tribe, but Oshkosh climbed up a notch and now is tied for third with the Brabyns. Sheboygan and Fond du Lac maintained their relative positions unaltered at the tail end of the league.

The Chairmakers have run into a stretch of hard sledding since the opening of the second half of the schedule and have copped but a single victory since that time, while the Cardinals have dropped all of their games with the exception of a tie with Sheboygan by one or two run margins.

Oshkosh pulled the surprise of the day by upsetting the Braby club, which the Washers did chiefly through Smith's pitching.

Madison Blues
Lay Claim To
Title Of State

By Associated Press
Madison—The Madison Blues, by virtue of their many victories during the present baseball season over every leading team in Wisconsin, have laid claim to the independent championship of the state.

During the week of Sept. 15, Managers Lenahan and Dodge are planning a trip through the northern part of the state meeting all teams that think they have a claim to the title. Rhineland, Antigo and other teams in the northern part of the state are among those to be encountered by the Capital city nine if games can be booked with them.

Menasha, leading team in the state league last four games in seven to Madison.

Saturday, Madison defeated the Chicago All Stars, headed by Jim Archer, former Cub backstop, 14 to 2. The Beloit Braves, Nash Motors and Kewasha Simons have all been trimmed by Madison.

ROD AND
REEL

M. J. V. FOSE

Questions and Answers

Q.—What is the proper length for a bait casting rod and is a limber rod better than the stiff variety? W. L. M.
A.—That depends on the bait cast. Some like the short rods while others like the longer ones up to 6 feet. Personally I prefer a rod five and one half to six feet. The whippy rod is the best for lightweight lures but if the plugs are used the short, stiff rod will hold up better and not take a set so easily.

Q.—How do they preserve minnow and pork strips in bottles? What kind of a solution do they use and how is it made up? C. J. K.
A.—A good minnow and pork and preservative is made from a solution of one half an ounce of formaldehyde to a pint of water.

Q.—What kind of glue is used to fasten a ferrule on a rod? I have noticed that the ferrules come loosened every spring and I have to send the rod out for repairs. N. F. C.
A.—Rod ferrules generally are glued to the wood with a ferrule cement made especially for this purpose. It is called ferrule cement and any tackle dealer carries a supply.

Q.—I intend purchasing a level winding reel and would like your advice on what make I should select. Do you think they are better than the regular quadruple reel? S. M. E.
A.—Level winding reels are a great help in casting and any of the Shakespeare level winding reels are excellent, especially the "Ideal," they make.

Leonard Tricks His
Rivals With Weight

Benny Lured Johnny Kilbane Into Knockout and Lead Weights in His Robe Fooled Tender.

New York—Next to the exact number of times the comely Joyce maiden has fallen in and out of love, in the order named, the most debated question in the country is, "Can Benny Leonard still make the lightweight limit?"

Some weeks ago Leonard signed to meet Mickey Walker for the water-weight title. "That settles it," agreed the smart eggs, "he's through as a lightweight." As you know, the bout fell through because Leonard splintered a fairly valuable thumb on the corrugated beam of Pal Moran in what was to have been merely a warm-up fight in Cleveland.

I saw the champion on the scales the day before the Moran fight. He weighed an ounce or so more than 140 pounds and was not exactly a sack of skin and bones. It struck me that he could have peeled off several additional pounds without visible effort. The lightweight limit is 135 pounds eight hours before ring time.

"I can make it with hard work," Leonard assured as he stepped off the scales. "But the trouble is there is no outstanding challenger among the lightweighters—no contender that would pack 'em in at the gate. That's why I agreed to battle Walker."

Billy Gibson, his manager, stood nearby. We've had a lot of fun with the boys about Leonard's weight," he chuckled. "A lot of fun and a lot of success."

Then Gibson proceeded to tell an amazing story of how he and Leonard have capitalized the widespread belief that the champion is "heavy."

One of Leonard's notable knockout victories was scored at the expense of Johnny Kilbane in three rounds in 1917 at Philadelphia. This was shortly after Leonard had won the lightweight championship from Freddie Welsh.

Contrary to custom, Leonard agreed to fight Welsh at 135 pounds, instead of 133 pounds. This created the impression that Leonard could not make 133 pounds. Kilbane figured the champion would be weak at the low weight and took him on. Leonard came in at 132½ pounds and handed the Irishman his first knockout.

Kilbane spent the week preceding the night riding to the bounds and attending swaggar affairs, so confident was he of the outcome.

Gibson claims Lew Tender, noted southpaw slugger, was hoodwinked in similar fashion. "Tender would have none of Leonard's game," insists Gibson. "If he had known the champion could do the weight, we helped him along in his pet delusion by weighing in heavy for one of the Dundee fights over in Jersey."

"Leonard wore his bath robe on the scales. In the pocket of the robe he concealed two lead weights. The scales registered 139½ pounds. As a matter of truth, Leonard weighed less than 134 pounds."

"And to show you how skeptical the fans are regarding Leonard's status as a lightweight they booed hoisterously when 139½ pounds was announced as his weight. 'Why he weighs 145 if he weighs an ounce,' they shouted."

"I'm Through"

JIM SCOTT

Old Jim Scott, who gained fame with the White Sox, turned in his uniform to the manager of the San Francisco club in the Pacific Coast League the other day and said, "I'm through." The veteran pitcher didn't wait to be cast adrift. This was characteristic of him. He was one of the diamond stars who didn't want to be drafted back in the war days. Scott quit the game in 1917, joined the colors and soon was commissioned a captain.

OSHKOSH HUMBLER
GREEN BAY, 6 TO 1

Superb Pitching by Smith Enables Washers to Cop from Strong Braby Club

Green Bay—Superb pitching by Smith enabled Oshkosh to take a fall out of Green Bay to the tune of 6 to 1 in a Wisconsin State League game here on Sunday. The Sawdust city hurler allowed only three blows while his team mates clouted the offerings of Wolysinski all over the lot, getting fourteen safe cracks, five of them coming in the seventh inning when the invaders scored all their runs. The Bays' only bright spot was a twin killing, Lewis to Ratten.

MINNETONKA BOAT
IS HELD FAVORITE

Minneapolis, Minn.—With one of the largest entry lists in years competing, the twenty seventh annual regatta of the Inland Lake Yachting association got under way at Deep Haven, Lake Minnetonka, near here, Monday.

Forty eight boats were entered in the three classes—A, C, and E—from yacht clubs in Minnesota and Wisconsin. A race each day in each class for five days will be sailed on Lake Minnetonka.

The Minnetonka Yacht club, under whose auspices the races are being held, has six boats in class A, eighteen in class C, and one in class E. Other clubs represented include the following from Wisconsin:

Neenah, Nodaway, Oshkosh, Lake Geneva, Dolevan lake and Pewaukee. The class C list includes Milwaukee, Pitakee, White Bear, Minn., Lake Geneva and Oconomowoc. The Kingsfisher, Minnetonka Yacht club, which won the class A championship at Neenah last year, is the favorite to repeat on its home course.

Millmen Play
Newshounds 17
Innings To Tie

Combined Locks and the Green Bay Press Gazette Newshounds Sunday afternoon played a seventeen inning game to a 5 to 3 tie at Green Bay, and then were forced to call the game because of darkness. Lardness pitched the entire game for the Newshounds, while Marty Lamers relieved Gertz in the ninth. Lardness had 3 strikeouts to his credit, Gertz 5, and Lamers 7, and the 3 moundsmen allowed 17, 5 and 11 hits respectively.

Ted Lamers and Les Smith each pitched fourbagers. Cavil slammed out for three stations, and Schall knocked out two doubles while Clark hit one Decker, Brenner and Cavil made sacrifice hits.

Dazzy Vance Will Try
To Check Buccaneers
In Race For Pennant

Both Yankees and Senators Gain Full Game on Detroit As New York Defeats White Sox and Johnson Holds Cubs.

The old cunning of Dazzy Vance and the heated ardor of the Pirates—now the most vibrant forces in the National league, will clash when the pitching sensation of the season faces the victory-mad Buccaneers in the series which Brooklyn begins at Pittsburgh, Monday.

Vance, winning 20 of 24 starts this year and capturing his last eight games with astorishing ease, will attempt to check a team which secents a pennant after administering four consecutive beatings to the Giants, whose lead they reduced from a runaway to 5 games.

The Robins invade Forbes field fresh from a double victory at Cincinnati Sunday 1; scores of 8 to 4 and 8 to 5. Riser and Donahue were knocked from the box by Dibut, recalled from the Florida team, held the Flatbush slingers silent in the last five innings of the second game.

Blade lusted Oeschger in the Cubs' 2 to 1 victory over Philadelphia when his mates punched hits in the first. Each hurler allowed but four safeties.

The Gants won a 7 to 5 exhibition game at Akron and the pulsing Pirates restrained themselves mildly by making nine homers at Warren, O.

The Braves made four of their six hits off Haines in one inning and won from St. Louis, 4 to 2. Benton held the Cards to 6 safeties.

Both Yankees and Senators gained a full game on Detroit in the American League as New York defeated the White Sox, 22 to 1, and Walter Johnson held Cobb's Cubs to four blows and won, 5 to 1. The veteran, pitching one of his best games, narrowly missed adding the Tigers to his long shut out list. The lone tally and two of the Detroit hits came with two men out in the ninth.

With a double and Dugan's triple, two of the four hits made by the world's champions off Holla Truett, proceeded a fielders' choice to Rutl and gave Pennock a winning lead. Seven Chicago safeties were scattered. The Yankees are now one and one half games ahead of Detroit which leads Washington by the same margin.

Do you know
Baseball?

QUESTIONS

1. There is a runner on first base. The pitcher delivers the ball to the batsman and it is fouled off. The hit and run is on and the man on first goes almost to second on the pitch. The umpire puts another ball in play. The runner starts back to first base, but before he reaches the bag the batsman gets back into his box and the pitcher gets on the rubber. The pitcher then throws the ball to the first baseman, who touches the runner coming back to first. Does the pitcher have that right? How is this interpreted in the major?—H. L.
2. Is there any rule that permits a base runner to advance only one base on an overthrow of first, third or home, or is it merely a ground rule made by the managers of the two teams? When such a rule is made must it be with the consent of the visiting manager?—H. B.
3. It is the last half of the ninth and the score is a tie. With a runner on third and no one out, the batsman hits a hard drive to center. Is he entitled to a home run if he can complete the circuit on such a drive?

ANSWERS

1. When a ball is fouled off, play is suspended. It is not resumed until the pitcher is on the rubber, the batter in the box and the runner has returned to first. When these things have happened play is resumed by the call of the umpire. An umpire should

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, VIA THE SECRET DRAWER

Here it is, little Marquise—a letter—a love letter, such as I am sure not even you ever received from your kingly lover. I, too, am going to forget, I too am going to be happy, for I am sure, dear little Marquise, that unless a man really and truly loved you very much, he would never get a constraint from a letter which you had tried your very hardest to make unconstrained.

A man can get the nuance of a tone, which will tell him more than reams of written words, for words, you know, are cold on paper, whatever they might be when they issue from human lips.

When Jack sits down to try to understand me, he does so with a prescience that is almost uncanny; and sometimes, little Marquise, I think Jack's and my love is greater and sweeter and more beautiful because little Jack is just what and who he is. There, I've said it, and as my husband said, "I'm never going to mention it all again."

Jack letters to me are so sweet, and as I read them I envelop him with such an ideal personality, that I have come to think an absent husband is more companionable than one who is always beside you.

This letter which I am confiding to your keeping, little Marquise, I think is the sweetest one I have ever received, not for what it says, but for what it doesn't say—and after all, the things that people do not say to you, the things that you do not read in their spoken or written words, are much more satisfying and precious.

Jack's letter has made me want him—made me glad that he is mine; and I believe now, at least, he loves me better than any woman in all the world.

Dear little Marquise, I didn't intend to say that! I wonder why I put in "now, at least?" Is he right? Is some of my trust in him vanished? Oh, I won't have it so! I will believe in Jack! Otherwise I am lost.

There, it's all gone. "I'm not going to wait, Jack dear, for your return, to enter that beautiful land of beginning-again, I'm inside the portals now, waiting to welcome you."

But men are such queer creatures, little Marquise. Think of ending that gorgeously temperamental love letter with such extraneous details as those which concern even the bereavement of Sally Atherton, or the mystification of Sydney Carton.

It's a strange thing, all this that goes on inside of us, the thing that we never tell—at least the thing we only tell once in a while. Jack has told it to me in his last letter, and when he comes back to me he'll be quite as casual as ever, and I'll wonder if he really wrote it, even while I'm accepting his husbandly kiss in a way that will probably make him question what there was in me that would draw out such an effusion as he has written.

Little Marquise, we certainly understand ourselves just as little as we understand others.

Adventures Of The Twins

THE TWINS DO AN ERRAND
"Hopping rain loads!" exclaimed Mister Zip, the fairyman one day in Happy Go Lucky Park. "If I don't hurry up I'll never make my fortune. Here it is—the end of the season almost and I haven't made it yet."

"Why," said Nancy in surprise, "there were so many people here yesterday that you said you were likely to make two fortunes."

"I know! I know!" said Mister Zip. "And it did look like it because the park was just crowded. But when I counted my money, I found that, although there were nearly a hundred people, I had only sold 10 tickets. How do you account for that, I'd like to know?"

"There must be something wrong," said Nick. "There must be," agreed Nancy. "There is," said Mister Zip. "And it's up to you children to find out what it is. People are getting in some way without paying. I am sure."

Away went the Twins to see if they could find out how it came that the wood folk and meadow folk were not paying Mister Zip 10 cents apiece to get into Happy Go Lucky Park.

The sign by the gate said "Birds and Babies Free," but that's all it did say.

The Woodchuck boys liked the park so well they were there about every day.

And Mike Moie and Flop Field Mouse (who were the chummiest chums) might as well have brought their trunks and stayed, for they were there first thing after breakfast every morning.

And Scamper Squirrel and Scramble Squirrel, who had come to spend their summer vacation with their aunt and uncle, Mr. and Mrs. Cracknuts, were everlastingly at the park, too.

And there wasn't any sign that said "Woodchucks and Mice and Squirrels and Field Mice Free." None at all!

The Twins went along very quietly, not making a sound, and pretty soon they came to Maple Tree Flats, where the Field Mouse family lived in the basement. Then they knocked on the door.

Mrs. Field Mouse stopped her ironing and answered it.

"Good morning," she said pleasantly, wiping her hands on her apron, as she always did, no matter how clean they were.

"Good morning," said the Twins. "Is Flop at home?"

"No, he isn't," said Mrs. Field Mouse. "He's gone to Happy Go Lucky Park."

"Did he have any money?" asked Nick.

"La, yes!" laughed Mrs. Field Mouse. "But he won't have when he comes home. I always give him a dime for delivering my washings and he spends it all on the new amusement park. But I don't care. When he's there I don't have to worry about him and it keeps him away from the wheat field and Mister Owl's sharp eyes. Also, the house where he cat lives. That's why I let him go."

"All right, Mrs. Field Mouse," said Nancy kindly. "We'll see him again some time."

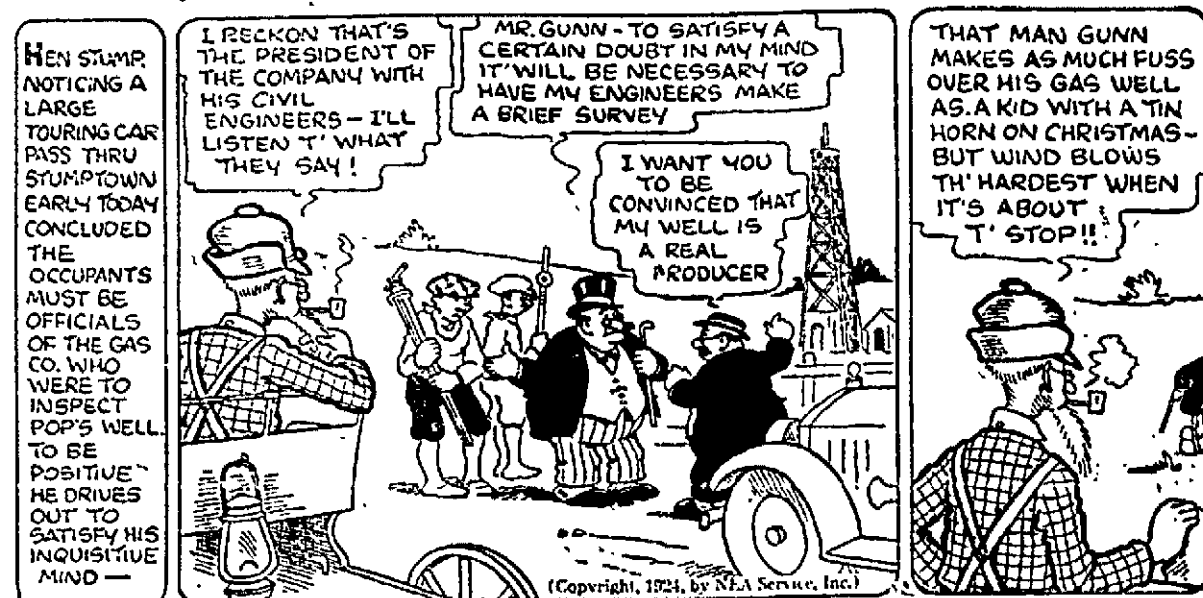

"That's funny," said Nick when she had closed the door. "Flop must be paying his way in. Let's go and see Mrs. Moie at her house under the hazel bush. Maybe she can tell us something."

The WELL-DRESSED AMERICAN

Taking a Peep Into a Man's Vacation Bags
WHAT wearing apparel shall I take on my vacation? August is considered the hottest month of summer. Vacations are most desirable then, and this year the late spring automatically moved many vacation periods ahead; therefore, it is agreed that August, more than any other month, will see large registrations in Relaxation and Diversion.
What clothing is necessary both for many men the night before they get started for the seashore, country or mountains. How many times have you neglected to take sufficient clothes? How many times have you brought back apparel you didn't need? There's a happy medium.
Take pencil and paper; visualize your activities while on the vacation. Consider the necessary things in the way of wearing apparel for these respective activities. Have the right things at the right time, and when you return, the contents of the bags can go directly to the laundry and the tailor for washing and pressing.
As you scan your present list of friends undoubtedly many names are there because of a simple vacation introduction. The man with an eye for the future will readily understand the value of friends in business, and many dollars have been saved or put to good advantage through valuable contacts created at vacation resorts. Good clothes, worn well, play an important part in inspiring friendships. Why not be on the safe side. Dress yourself "to win." Why content yourself "for place," or "to show?"
At the shore a man dons white flannels, a dark coat, sport shoes and gets a kick out of it. A comfortable suit of knickers at the mountains or country makes him peaceful in mind. To give harmony to these respective attire he includes in his bags collars, both stiff and soft; pleated, soft white and plain colored shirts with regimental striped collars and bat wings bows. Sport shoes for the beach and mountains; silk hose and wool, Panamas and those present-vogue lightweight felts which have become popular despite the hot weather.
Men's bathing suits have kept pace with women's water garb, so far as trimness is concerned. Males, too, have become addicted to the sensible one-piece suit which gives the appearance of a two-garment suit with its shirt over-lapping the trunks. These suits go on and off in a jiffy. The responsibility being entirely on a single-button on the left shoulder strap. Many beaches

The "Pull-Over" Sweater, a Real Vacation Need

at the shore resorts and ponds in the country because of their pebbly bottoms make bathing shoes a comfortable necessity.
There is nothing so comfortable as vacationing in knickers. The free, roomy feeling around the legs makes lying on the beach, hiking mountain trails or wandering through country lanes a pleasure. Three smart style combinations which include knickers have been seen at all vacation resorts this season: The blue coat with white knickers, the white shirt and white knickers, with a blue sleeveless jumper, and a full sleeve jumper with blue crash linen knickers. The sensible man will wear ties, hose and shoes to harmonize with any of the above materials. Those who desire a trifle more formality will find comfort and good appearance in the full linen suit, the pongee and the mohairs.
Be sure to have a carton of matches in your bag. Sometimes they are as scarce at summer resorts as double-portioned dessert. Take along your favorite pipe, a can of tobacco, or plenty of your particular brand of cigarettes. Country stores do not carry varied stocks, and it's like shaving cream—you get accustomed to one brand. If you're carrying golf clubs, stick an umbrella in the bag, too. Uncle Jupiter Pluvius knows no vacation.
The "pull-over" sweater seems to have been accepted by men as necessary these days. In principle it goes over the head, even as the old-fashioned "turtle-neck" sweater, but is fashioned of the lighter wools. Its V-Neck, edged with contrasting color, gives the wearer a certain smartness, but not at the expense of comfort or practicality.
SISTER MARY'S KITCHEN
(A Menu for the Stout and Thin)
EAT AND—
—Lose Weight—Gain Weight—
Breakfast—One cup hot water with the juice of 1/2 lemon, 1 slice crisp whole wheat toast.
Luncheon—Stuffed tomato salad, 1 gluten roll, 2 tablespoons raspberry crush, 1 cup diet egg flip.
Dinner—One cup clam bouillon, 1 stuffed baked pepper, 1 head lettuce with 1 hard boiled egg and 2 tablespoons well seasoned lemon juice, 2 tablespoons cantaloupe ice, 2 macaroons.
Bedtime—One cup skimmed milk. Total calories, 1051. Protein, 21; fat, 29; carbohydrates, 549. Iron, .0197 gram.
DIET EGG FLIP
One egg white, 2 tablespoons lemon juice, 1 teaspoon sugar, 1 cup skimmed milk.
Beat white of egg until stiff with sugar. Beat in lemon juice and add milk. Serve very cold.
Total calories, 144. Protein, 49; fat, 7; carbohydrates, 88. Iron, .005 gram. The tomato is stuffed with cabbage, cucumber and pepper, served on a bed of lettuce with 2 tablespoons diet dressing.
The pepper is stuffed with vegetable and nuts. Beware of most "made" vegetable dishes. Many fattening calories may be lurking in them in innocent guise. A thick, rich white sauce or several eggs will change a harmless green vegetable into a dangerous fat-producing food for the earnest but unthinking "reducer."

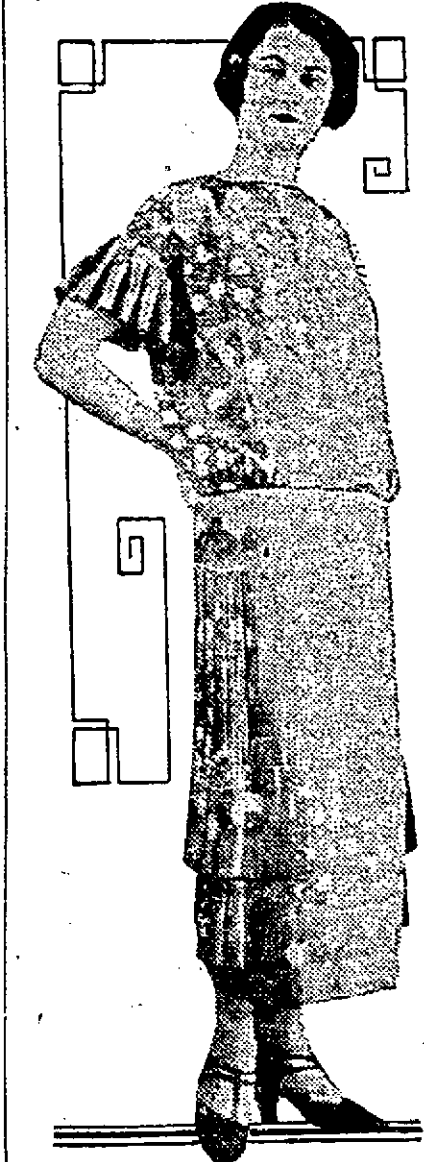

fruit; drain, add fresh water to cover and simmer until tender; strain juice from pulp. Add crab-apple juice in the proportion of one-third to two-thirds plum-juice; let all cook down one-fourth, skim and add sugar in equal proportion to weight of fruit. It should jell in twenty minutes or less.

Breakfast—One large ripe sweet pear, 1/2 cup cooked cereal with 4 tablespoons cream, 1 creamed egg on crisp toast, hot water.
Mid-morning lunch—One large glass orange juice, 2 peanut butter sandwiches.
Luncheon—One cup cream of spinach soup with 2 tablespoons whipped cream, stuffed tomato salad, 2 slices nut bread, 1 tablespoon butter, 4 tablespoons raspberry crush with 2 tablespoons whipped cream, 1 chocolate cup cake, 1 cup whole milk.
Afternoon tea — One glass chocolate malted milk, 2 lettuce sandwiches.
Dinner—One cup clam bouillon, 1 stuffed baked pepper with 2 tablespoons cheese sauce, 4 tablespoons buttered steamed rice, 1 head lettuce with 1 hard boiled egg and 2 tablespoons mayonnaise, 2 Parker House rolls, 1 tablespoon butter, 4 tablespoons cantaloupe ice, 4 macaroons.
Bedtime—One cup whole milk. Total calories, 4,194. Protein, 42; fat, 169; carbohydrates, 2053. Iron, .028 gram.
When you stop in at the corner drug store and have a chocolate malted milk you must add about 400 calories to your total for the day. And if you indulge in an egg malted milk you will imbibe about 500 calories.
French dressing was planned for the stuffed tomato salad in the luncheon menu. When the mid-morning lunch or afternoon tea is particularly rich in fat the salad for luncheon or dinner should be simply dressed.

Fresh Paint Can Work
Wonders With Ancient
And Dusty Interiors

DECORATING WINDOW SHADES
To carry out the color scheme of your room, every detail should be in harmony. This desire for harmony may be carried even to the window shades, which can be freshened and glorified with paint. While it is not wise to attempt to paint a dark shade light, a light shade takes a dark color very well. A dark shade can be lightened with decorations in stencil. If you have a light shade that is too transparent, a darker design alleviates the shadows and makes the shade useful.
The process of repainting a window shade is very simple. Brush, or wipe away, with a dry cloth, all the dust. Place the shade flat on a table or the floor. Mix three parts of flat wall paint with one part of mineral turpentine and, using a broad bristle brush, apply to the shade, thinly. Use down strokes and work quickly. Two coats are sufficient.
Care should be taken in the matter of decoration. A conservative design is the only thing in good taste as far as shades are concerned. Usually, a design is placed just above the hem. It may be floral motif—birds, flowers, butterflies or leaves. These motifs are all in good taste, and may be applied to either side of the shade.
A white shade that is soiled can be made into a new and fresh-looking one if it is painted in gray, light blue, green, or buff.
ANTIQUING FURNITURE
Perhaps you have an old piece of furniture that needs paint, but which must be kept antique-looking because of the character of the piece. Select two harmonizing shades of paint—a dark and light blue, for instance. Apply the light blue, or let it dry. Then apply the dark blue, and while wet, tap or pat the surface with a damp sponge.
RENEW BATH TUB ENAMEL
The finish of the legs and outside of the bath tub is soon destroyed by the action of soap, rapid changes in temperature and antiseptics, and need frequent renewal. Scrub with mild soap and clean with water. An undercoat should be first applied, then three coats of bath tub enamel at twenty-four hour intervals.
When the last coat is dry, fill the tub with cold water, then turn on the hot, allowing the cold to escape gradually.
CARE OF WINDOW SILLS
You have given the outside of your home the proper paint protection, guarding it against the ravages of rain, wind and storm. But there are parts of the house that might be considered as both interior and exterior—the window sills. They must be painted to harmonize with the interior color schemes, and they must be properly painted to resist the elements.
All dirt and loose paint must be carefully removed from the sill before it is painted. Three coats of paint are essential, following plenty of drying time between coats. Thus protected, the heat of summer sun and the devastating moisture of sudden showers will not "weather" and wear away the wood of the sill. The artistic value of the sill is greatly increased by painting in harmonious and pleasing colors.
CLOTHES HAMPER
The serviceable wicker hamper, regardless of its shape, will be less conspicuous and more decorative and will last longer if painted. Hampers are usually purchased in natural color. In the bathroom of kitchen, paint them the color of the woodwork, with a band of harmonizing color on the bottom and center. In a bathroom or bedroom, the hamper should match the wall behind it. It should be thoroughly dusted and perfectly dry before painting.
SUMMER HOUSE ROOFS
Aluminum paints are used to best advantage on the under side of the roofs of summer and spring houses. Aluminum paint retards radiation and will, therefore, keep the interior very much cooler than it would be if unpainted, or painted with an ordinary paint. The outside of the roof should be in a light color so that as much heat as possible may be reflected. Silver or bronze paint should decorate the interior, preventing the entrance of heat absorbed through the roof, and making the interior appreciably lighter.

This is exceptional. Six handkerchiefs have been used by a clever young Paris dressmaker to make this smart afternoon frock. It is a Paul Caret model.

FASHION HINTS

BUTTON DESIGNS
The French designers continue to do the most interesting things with buttons, combining them with embroidery and making motifs of them as well as running them up and down in rows.
LINES CURVED
The slightly circular line about the hemline is much more popular than the square, straight one, though the wrapped skirt is probably most popular of all.
STRIPED SHIRTINGS
Striped shirting makes very snappy as well as serviceable sport costumes. Those with bosoms of tucks that run crosswise and low leather belts are universally becoming.
ONE-SIDED EFFECT
The one-sided effect is returning to favor, that is with one shoulder exposed and the other shrouded in cloth, and a different sleeve treatment.
COLORED HATS
Brilliantly colored hats with shiny fruit are very much liked to give pep to black or dark blue hats.

How To Make
Homes Cozy

Usually as many chairs as there are regular diners should be placed conveniently around the dining room table. But where the room is spacious enough, the chairs may be lined up against the open wall spaces.

HOLDS UP PICTURES
Large needles will hold light pictures safely on the wall and will not injure the paper or the wall.

CAKES AND COOKIES
Use one level teaspoonful of baking powder to one cup of flour when making cakes and cookies.

BUY NEW RUBBERS
It is better to buy new rubbers for

your fruit cans than take chances on old ones which may be defective and spoil your fruit.

NEAT APPEARANCE
To paint all the tin containers in which you keep your food a color

that harmonizes with the kitchen wall will insure a neat appearance.

SETS COLORS
Borax helps set color, so a little added to the water in which cotton clothes are to be washed is of great advantage.

FILLING FOR MATTRESS
A filling of dark hair is said to be preferable to one of white for a hair

mattress, since the white must be bleached and this relieves it of its springiness.

ECONOMIZE ON GAS
If your oven has less space than you have foods to place in it, stand a brick on end and set a dish or that. As long as you have to keep the oven going you should plan to do as much baking as possible with one application of heat.

JAPANESE ARMY LACKS EQUIPMENT AND AIR FORCES

Leaders of Military in Nippon Plan Reorganization of Defenses

By Associated Press
Tokio. — The leaders of the Japanese army are planning to modernize the organization. Lieutenant-General Kaushike Uekai, minister of war, has appointed a commission with the vice-minister of war, Lieutenant-General Ichisuke Tsuno, as chairman, to study the question of bringing the equipment of the land forces up to date. Its report will be ready by March 1925. In connection with this work a party of Japanese army officers has gone abroad to study modern organization in France, Great Britain and the United States.

It is pointed out that generally the equipment of the Japanese army has changed little since the Russo-Japanese war. At the same time it is realized that the question of money is one of the most difficult involved in the problem. Earthquake reconstruction is keeping the army appropriations to a low figure. The modernization program, in the beginning, must be paid for largely out of economies effected within the army.

Japanese military leaders consider their greatest deficiency to be in aviation. The army air forces now consist of six flying squadrons. The high command would like to double this number, although the problem of training enough aviators is a serious one, probably more serious than the shortage of funds at present, for the Japanese have not proved themselves good aviators, and the high command among flying officers does not make the service attractive to young men seeking a military career. However, the authorities are considering an aviation expansion program to spread over approximately five years.

Chemical warfare is almost a closed book to the Japanese army. Although Japan has no intention of multiplying the Washington submarine and poisonous gas treaty, her army leaders plan extensive research into the employment of and defense against the latest chemical weapons.

Japan is without tanks, to all practical purposes. A few were brought back to Japan after the war for study purposes, but there is no branch in the Japanese army corresponding to the tank corps of American and European forces. Motor transport also is backward in the Japanese army. The use of armored cars also will receive consideration from General Tsuno's committee.

Machine guns and automatic rifles still are comparatively little employed in the Japanese army, and one of the chief duties of the party now in Europe will be the study of such weapons. In field artillery there is believed to be considerable room for modernization.

In all discussion of the proposed army program Japanese officers insist on the non-aggressive intentions behind it. It is stated that Japan merely desires to bring her army up to something like the standards here, by the other great powers, which she learned at first hand the bitter lessons of the great war.

DEATHS

JAMES W. DORAN
James W. Doran died Saturday afternoon at his home, 737 Harris-st., after a brief illness. The funeral will be at 8:30 Tuesday morning in St. Mary church and burial will be in St. Mary cemetery.

Mr. Doran had been employed by the Fox River Paper Co. for a quarter of a century.

Survivors are his widow, Mrs. Margaret Doran, and three sisters, Mrs. J. F. Hayes, Patterson, N. J.; Mrs. Charles McGraw, Lewiston, Me.; Mrs. Margaret C. Doran, Portland, Me.

MRS. FRED MALDEWIN
Mrs. Fred Maldewin, 56, who formerly lived at Hortonville, died at her home in Oshkosh Sunday morning. The funeral will be held at the residence at 7:30 Tuesday afternoon and burial will be made there.

Mr. and Mrs. Maldewin moved to Oshkosh from Hortonville about five years ago. They conducted a furniture store at their former home about 15 years ago.

Decedent is survived by her widow; one son, John, Glendale, Calif.; two daughters, Mrs. Frank Wendt, Milwaukee; Linda, at home. One sister, Mrs. Martha Fischer, lives at Hortonville, and she also has two other sisters and one brother.

LEGAL NOTICES
NOTICE TO PAVING CONTRACTORS
Notice is hereby given that the undersigned Board of Public Works in the City of Appleton, Wisconsin, will receive sealed bids until 4:00 P. M., August 28, 1924, for paving Cherry Street, from Prospect to Cherry Street, Bridge, City of Appleton, Wisconsin, according to the plans and specifications now on file in the office of the City Clerk, with the several kinds of acceptable city pavement designated in said specifications.

The Common Council of the city will select the kind of pavement to be used after the bids are received.

The persons or parties making bids shall furnish same on proposal or contract blanks prepared by the Board of Public Works, and no bid will be considered which is not accompanied by a contract with sureties as prescribed by the forms so furnished and as provided for by section 62.15 of the Statutes of Wisconsin for the year 1923, complete with the exception of City's signature. Blank copies of such forms may be obtained from the City Engineer.

The Board reserves the right to reject any or all bids. Dated August 9, 1924.

By Order Board of Public Works:
E. L. Williams, city clerk.

Opportunity Is Hobbled

The captions that head the different groups of opportunities which make up the Post-Crescent's Classified Section, are fixed so that the opportunity you want can't get away from you.

Both the main captions and the captions of the sub-classifications are arranged alphabetically and numerically. And in addition to this there are the alphabetical index terms of the offers themselves.

That's about as far as it is possible to carry system! But there's no limit at all to the distance such a system can carry you.

By taking daily advantage of this well-systematized service you can easily outdistance your neglectful brother!
